

THE TRIBUNE.

FROM BERMUDA.—By the British brig Quadruple, Capt. Swan, we have received Bermuda papers to the 2d October. The Herald of the 2d October says:

During the last week, we have had moments of rain, and there were such violent gales as must be no cause for the constant showers, which hindered him from pursuing his usual avocations. The clouds during the last fortnight have been much surcharged with electricity, which being attracted downward, luckily spent its fury in scalding the tops of high trees, without doing further injury. The atmosphere is now much clearer, and the people are escaping from the several gamps of sand.

On the 1st ult. the President of the Council, by command of His Excellency the Governor, declared the Colonial Parliament prorogued to Thursday, the 2d day of October.

The Harbor of St. George has of late filled up very much around the wharves in the Carrington, owing originally to the great wash from unpaved streets. The streets have been paved, but this has not cured the evil, and a powerful dredging machine will remove the encumbrance of the mud.

Died, at his residence in Devonshire Parish, on the 20th instant, at which he had only been twenty-four days, on his return from Grenada for the benefit of his health, ROBERT NEWBOLD, Esq., a member of the House of Assembly, in the year of his birth. Mr. Newbold had been a member of the House of Assembly, and was to the time of his death a member of the Council of the Islands of Grenada.

On Monday afternoon four prisoners belonging to the Court of Appeals, got possession of the gig boat fitted with sails and proceeded to sea. The Gleamer steamer and some fast sailing boats went in chase of them. They were brought in sight by one of the boats, but the night coming on very soon after, the chase was discontinued.

The gig is of common size, and as the boat had been high speed, there was strong chance that their attempt proved successful. (Herald, Sept. 25.)

A fire broke out in the guard house on Ordinance-street, and on the 2d ult. threatened to burn down the adjoining storehouses, but by taking down the guard house, the minister was able to extinguish it.

The Guardhouse has accounts from Barbadoes to Sept. 6. The last cargo of the sugar crop had been shipped for England. The whole crop was 24,927 hogsheads—193 more than last year.

Influence was prevailing at Demerara to distract attention, and not caused many deaths. The failure of Messrs. Stewart & Co. in the American trade had caused much suffering. Work was soon to commence on the projected railway from Georgetown to Mahahia, most of the stock having been taken up in England. The crop was expected to fall short. Trade dull, and money scarce.

Influence prevailed at Jamaica. The railroads were in rapid progress.

In Antigua the sugar crop had fallen off. The weather was dry and unfavorable.

HORSES FROM HENRY CLAY'S FARM.—The Tarquin, now leading with stock for the West Indies, has already 36 horses ready to go on board, 13 of which are from Mr. Clay's farm in Kentucky. Nearly the whole of the remainder will be sent from that noted farm.

President made the arrangements in Kentucky himself, and in his business as well as social intercourse with Mr. Clay and his son, he found them high-minded and generous. Before leaving Kentucky, Mr. Prentiss had given him a blood mare of extraordinary beauty and value, which was sent to him by express.

It was presented by Mr. Clay, and her original cost was \$600. It is needless to say how much she is prized, and that no amount of wealth could cause her to "change hands." The owner designs to keep her for the purpose of improving, if not breed, animals in Connecticut. (N. Haven Palladium.)

RAPE.—Duren M. Denison, of Claremont, committed a rape a few days since on Sarah M. Clark, and immediately absconded. A reward is offered for his apprehension. He is about 33 years old, thick set of hairy hair and reddish hair.
